

# ENDURO RACES

## Segment Races

We'll hold an enduro-style race using a series of Strava segments. You'll be able to run these segments as many times as you want from arrival time through our cutoff on Saturday afternoon at 1:00pm. At that point we'll tally up results and announce our top 3 for each segment and each division at the evening Awards Ceremony. We'll also crown an overall winner for each division based on total cumulative time across all segments.

## How do you participate?

Since we're using Strava to track times, you'll need to download and install the Strava app to your smart device of choice. We will be using the "Clubs" function in Strava to separate riders out by division — this will let you filter the leaderboard by club to see the top 10 for Mens, Womens, Groms, etc. You'll record your rides during the event and we'll have wi-fi near the main parts of the property for your saved rides to upload.

SAVE TIME and install Strava now if you don't have it!

Walk through the steps below to join the appropriate club for your division.

Note: You DO NOT need a paid Strava account to record your rides and participate, but they are currently offering a free trial if you want to see what it offers.

- Download and install Strava
- Set up your profile
- Select "Groups" along the bottom menu (Icon with 4 dots)
- Select "Clubs" at the top right menu on the next screen
- Enter seeknshred in the search box where it says "Find a Club"
- Select and join the appropriate club for your division
  - Clubs / Divisions Available
    - Camp SeeknShred Men's
    - Camp SeeknShred Women's
    - Camp SeeknShred 45 - For riders 45 yrs and older
    - Camp SeeknShred Groms - For riders 12 yrs and under
    - Camp SeeknShred Clydesdale - For riders over 215lbs
    - Camp SeeknShred Chair Riders - For chair, crate, rocking horse riders
- Select the Record button to record a new ride
  - **Important:** Select "Ice Skate" as your activity type or sport
  - Ride around the property and Strava will track your ride and your times on any segments you complete.
- Save your activity when complete to save and upload your ride stats
  - **Pro-Tip:** Wait until you are back within wi-fi range to save your activity to reduce the chance of lost data. As with any timing system, there can be issues with missing times so please ensure you've been able to successfully upload some segment times prior to our cutoff at 1pm Saturday.

## What if you don't have a device to use with Strava?

If your grom is racing and doesn't have a phone to use, we recommend you set up a Strava profile for them on your device. While logged into their profile, follow the steps above to join the Camp SeeknShred Groms Club/Division and have them keep your device with them while they record rides on segments. Make sure to switch back to your own profile when you're racing for yourself.
